HAPPY NEW YEAR

BARN CLOSE PLAY AREA

In December the play area was stripped out and the old equipment taken away ready for the new play area. We'll be holding a meeting in the Pavilion soon where you can let us know exactly what you would like see replace it. It's been a long time coming but hopefully we're not far off having the new play area for the Under 6's installed.

There was a bin in the old play area which has now been removed too but if you've journeyed along Apreece Way recently, you may have spotted a brand new bin near the Apreece Wildlife Garden that our Caretakers, Andrew and Victor, have installed. It's so much better with a lid on it.

Are you wondering where the North Street painted village sign is? Glyn is still working hard to get this ready but the finishing touches are being applied so it should be unveiled in a few weeks time.

At our December meeting we decided to ...

* **get moving on providing a brand new noticeboard for the North end of the village. Cllr Phil Shailer is busy getting some prices together and hopefully we'll have this ready for action soon**
* **help the Traffic and Parking Working Group who have requested another Movable Vehicle Activated Sign (MVAS) to help keep traffic speeds at safe levels throughout the village. We're planning to submit an LHI application for solar powered signs and new posts this month**
* **fit metal air brick covers at the Pavilion as we've had increased amounts of rodent activity recently (it's just too nice and warm in the Pavilion so we don't blame them for trying!)**

* **delay the circulation of our Winter newsletter throughout the village until a little later this month. We'll be sharing information on forthcoming elections, providing a greater insight on the classes available to take part in at the Pavilion and detail how you can get involved with choosing the new play pieces for Barn Close play area (as above).**

Reminder: Grit Bins. There are 3 grit bins around the village for residents to use if/when the weather becomes icy and slippery. Please take what you need. They are at the junctions of:

* **Church Close and High Street**
* **North Street with Mill Road**
* **St Mary's Road/Caldecote Road.**
