STILTON PARISH COUNCIL

August

UPDATE

- **Our Summer newsletter is making its way through the printing press and will be delivered to every house in Stilton this month. There's a lot of village news so this edition is a bumper one!**

The 2 new dug outs at the Community Field are finished and football ready. Hard to imagine now but when rain and wind return, they'll offer much better protection for Stilton players.

- **We had our annual delivery of compost from Huntingdonshire District Council in July and it was made use of by residents in record fast time. Hopefully there will be another delivery same time, next year but don't forget you can collect free loose compost from the transfer stations in Waterbeach, March or Alconbury or a bag can be bought from any household recycling centre for £3.50.**

Parking enforcement is coming!

The Parish Council often receives communication from residents concerned about parking outside the NiSA or on Stilton's roads ... keep reading below for more details.

At our July meeting we decided to ...

- **Remove the broken metal railings around 3 Cemetery graves for safety reasons. This will also make grass cutting a little easier. In the coming weeks you'll find a 'How to' guide for burials on our website and we're also going to plant bulbs along the path to the Parish Room which will add a burst of colour and boost biodiversity levels.**
- **Allow complimentary Pavilion use on Tuesday 16th September as a new class joins our weekly line-up. Debbie is bringing 'Move It or Lose It' for the over 60's to the village. The first class, between 11:15 and 12:45 on that Tuesday, will be free to attend if you fancy giving it a go.**
- **Carry out repair works to the Skate Park in line with the recent PlaySafety RoSPA report and move up a gear with the long awaited Barn Close Play Area renovation. Decisions are to be made at the August Parish Council meeting and we'll share exiting updates with you following that.**
- **Start looking at possibly installing a path around the perimeter of the Community Field for residents to stroll, jog or bike around. It's a longer distance than you might think!**
- **Contact Yaxley Health Centre about reports we've received that Stilton residents are struggling to request repeat prescriptions unless they attend in person or go online.**

Parking Enforcement

Parking rules in Huntingdonshire aren't changing, but who enforces them is.

From August 2025, parking enforcement will be managed by the District Council – helping improve safety, access, and reduce illegal parking in our communities.

Coming soon!

Forthcoming Village Roadworks

Drainage construction and associated investigative works are due to take place on North Street and High Street between Norman Drive and Church Close, 1 August until 31 August 2025. Roads affected will be North Street, High Street, Oak Road, Fen Street and Church Close. Diversions will be in place as shown below.
